to Capite! Hill, where the beauties of the valley, from which a splendid view ca nbe obtained, was pointed out to the president.

A quick return journey was made to the tabernacle, where President Taft delivered an address.

Leaving Provo for the capital city, there was a three minute stop at Ameican Fork and Lehi, where great crowds had assembled to greet the president and bid him good luck and God-speed on his journey.

Saturday morning the president, accompanied by the members of his party, was escorted from his hotel to the Commercial club, where, at breakfast, in company with the leading officials, business and professional men of the state, the president made further acquaintance with genuine western hospitality.

At 9:30 the party left the Commercial club rooms for a trip to Saltair, the president's first visit to Utah's not stay for weeks, months or years, nacle, being prepared especially for

At 11:45 the president was the guest of the members of the Country President Taft's entry into this club, where he was given a chance to

HUMOR BURNED AND ITCHED.

Eczema on Hand, Arms, Legs and Face-It Was Something Terrible.

ago eczema developed on top of my hand. It burned and itched so much that I was compelled to show it to a doctor. He pronounced it ringworm. After trying his different remedies the disease increased and went up my arms and to my legs and finally on my face. The burning was something terrible. I went to another doctor who had the reputation of being the best in town. He told me it was eczema. His medicine checked the advance of the disease, but no further. I finally concluded to try the Cuticura Remedies and found relief in the first trial. I continued until I was completely cured from the disease, and I have not been troubled since. C. Burkhart, 236 W. Market St., Chambersburg, Pa., Sept. 19, 1908."

Snake Story.

"Before he went fishing," said the town story-teller, he swallowed 'bout a pint an' half of snakebite remedy, an' of course you know what that is? Well, after the snake bit him, the reptile cut all sorts o' capers, kaze the remedy went straight to its head. Last thing it tried to do wuz to swaller its tail, an' it got itself in the form of a hoop, an' I'm a liar ef the children didn't roll it around all day!"-Atlanta Constitution.

Mars the Next Field.

There are many who will part from the north pole with regret. All their lives it has seemed the one unconquerable salient of nature's fortress, the very synonym of the impossible goal of human endeavor. With the pole itself succumbing, the world is no longer the same, and everything seems within the realm of mortal achievement. We must now think of talking with Mars with more respect. The professor's mirrors may prove any day a reality.

They Didn't Have to Change.

During the years in which our pure food laws have been put into effect there has been a great hurrying and scurrying on the part of the food manufacturers to change their methods to make them conform to the law.

The Quaker Oats Company is a conspicuous exception. It was admitted that Quaker Oats was as pure and clean as possible and that it was an ideal food.

It is so cheap that any one can afford it and so nourishing that every one needs it. The result of last year's experiments at Yale and other points where food values were tested is that Quaker Oats has been adopted by many persons as their food on which they rely for adding vigor and endurance of muscle and brain.

The Quaker Oats Company meets all demands in the way it packs Quaker Oats; regular size packages and the large size family package; the latter, both with and without
